# Want To Increase Safety?

- Statistics indicate that the transportation industry ranks the highest among the nation in injuries to the upper and lower extremities.
- **The X-Press Converter Tool increases safety to drivers immediately.**

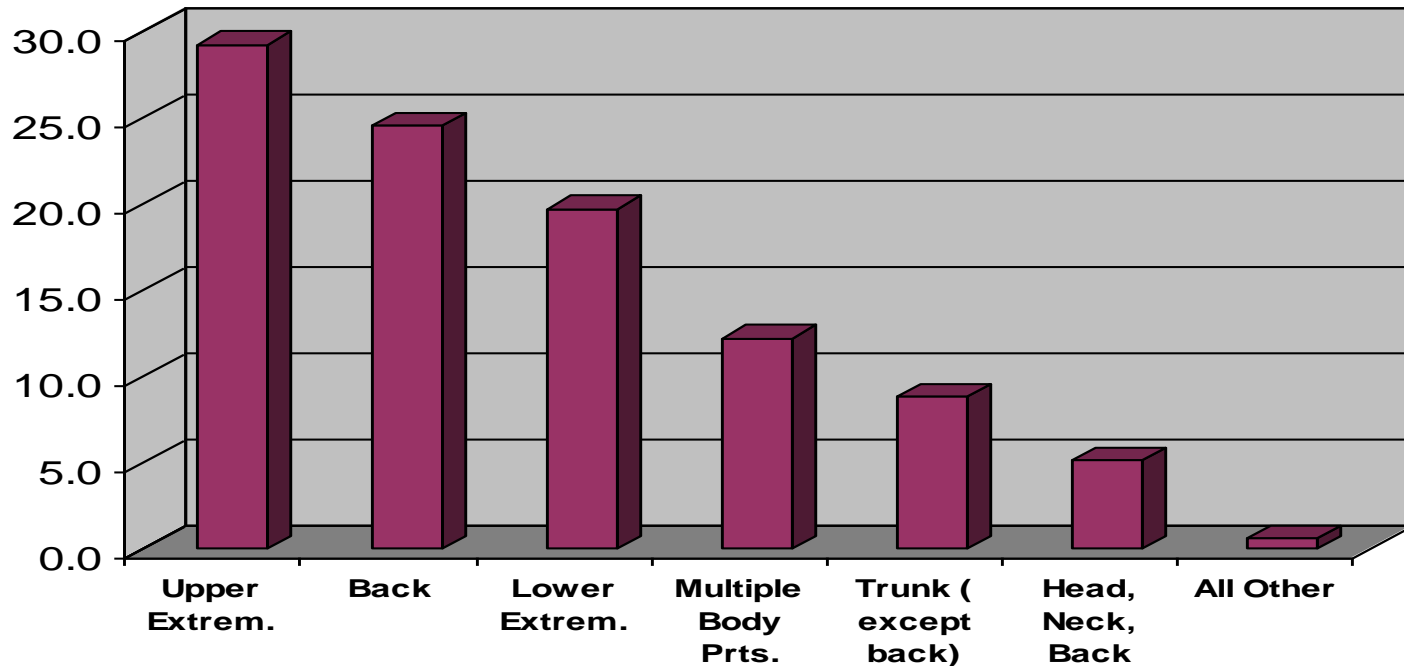

# Highest Injuries\*

(Upper/Lower Extremities Including Back)

\*Arkansas Workers Compensation (Department of Labor Statistics)

■ Percentages of 16,938 Cases Reported \* Percentages may not add to 100 due to rounding

# SAFETY FEATURES

- Physically **handle the dolly one time** and one time only
- Driver fleet is getting older and typically out of shape and more injuries are possible
- Less times in/out of the tractor, thereby lessening the chances of injury by falling
- **Handle on the XCT** assists in maneuvering the dolly to the correct position
- No chance of jack knifing the dolly when backing it into the next trailer's king pin

# Increased Road Productivity

- No longer a concern of working on gravel when using the X-Press Converter Tool
- Connect time for doubles is **7 minutes**, compared to current time of **14-20 minutes**
- Connect for triples is **13 minutes** vs current time of **35 minutes**, handling each dolly once
- Less experienced drivers, no concern NOW!

# Cost Justification

- **Savings of ½ time** to connect to doubles and triples; proven by fleet trials
- Reduce disability claims due to back injuries when handling the converter dolly or heading down road with back pains
- Each XCT will **pay for itself** in less than **4 months** with driver time savings alone
- Rain, snow, ice – eliminate that additional problem by reducing dolly handling

# LTL CARRIER ACTUAL RESULTS

6 month total of hookups – 96,794

BEFORE X C T: 12 min average per dolly  
total time of 19,358.8 hours  
total cost @ \$20/hr is \$387,176

WITH X C T: 7 min average per dolly  
total time of 11,292.6 hours  
total cost @ \$20/hr is \$225,852

**\$161,323 savings  
in 6 months**

# Installation

- X-Press Converter Tool is permanently attached to the converter dolly by U clamp and cat pin
- Each trailer has a gusset plate and pintle hook attached in a **DOT approved location**
- The sturdy gusset plate allows for years of use with the XCT and your converter dolly
- XCT Kit consists of the XCT and two gusset plates with hooks & connectors

# Training & Installation

- You Provide The Driver.
- We Provide The Training & Installation Assistance.
- Less Than 10 Minutes of Training necessary.
